

# Plastics Recycling & Trade

## Key Milestones

08/2023  
PolymerCycle acquires best plastic management

08/2024  
Acquisition of PB Group

06/2025  
Acquisition of Hoffmann + Voss

**polymer  
cycle**

**bpm**

**pbs**

**hovo**

Through buy & build, PolymerCycle now covers the entire plastics recycling value chain, providing a one-stop-shop for high-quality recyclates to demanding customers

### Business Description & Growth Drivers

 PolymerCycle is a mechanical plastics recycling company specializing in the production of high-quality regrinds, regranulates, and customized recompounds, mainly from post-industrial waste

 Catering demanding end-markets, such as the electronics and automotive industries, PolymerCycle enables its blue-chip customers to decarbonize their product offerings

 Increasing regulation on recycled content, customer demand for circular materials, cost competitiveness

### Footprint & KPIs

**120,000+**  
tons plastic waste processed and traded p.a.

**6**  
production sites across Germany

**150+ FTE**

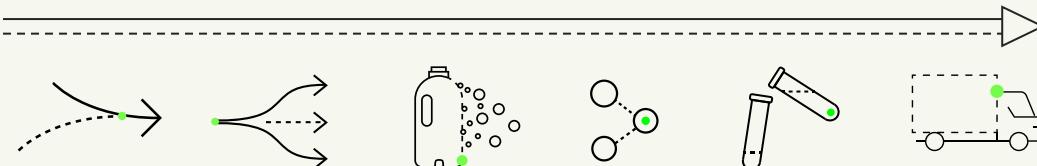

### Buy & Build Profile

**Target Markets**  
Opportunistic add-ons across the entire value chain

**Minimum EBITDA**  
EUR 1 million

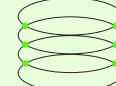

**Geographic Focus**  
DACH

### Value Chain

Waste trading → Separation technology → Grinding → Granulation → Compounding → Distribution

### Impact

  **Circular Economy**

**> 5'000 tons p.a.**  
 $CO_2$  avoidance / EURm invested

Reducing the need for virgin plastics, enabling the transition towards a circular economy
